SUMMARY

For the 2021 APCO Annual Report, *Frucor Suntory Australia Pty Ltd* has achieved Level 5 (Beyond Best Practice) for the core criteria. All seven core criteria were answered and six out of six recommended criteria were answered.

INDICATORS

This Annual Report shows the organisation's performance against the APCO Packaging Sustainability Framework.

CORE: All core criteria.

RECOMMENDED: All answered recommended criteria.

TOTAL: Sum of all core and answered recommended criteria.

LEADERSHIP: All criteria that defines leadership on packaging sustainability.

OUTCOMES: All criteria that lead to direct improvement in packaging sustainability.

OPERATIONS: All criteria related to business operations for improving packaging sustainability.

REPORTING FRAMEWORK

OVERVIEW

1. LEADERSHIP

2. OUTCOMES

3. OPERATIONS

X.X Core criteria

X.X Recommended criteria

LEVEL DESCRIPTION

LEVEL 0

NOT YET STARTED

The organisation does not have a plan and has not started investigating options for action under the relevant criteria.

LEVEL 1

GETTING STARTED

The organisation is developing a plan or is investigating options for action under that criteria (e.g. agreeing on goals and targets).

LEVEL 2

GOOD PROGRESS

There are documented procedures in place (e.g. to implement the Sustainable Packaging Guidelines) or some progress has been achieved, data tracking shows up to 20% of products have achieved the desired outcome.

LEVEL 3

ADVANCED

The organisation has specific, measurable targets in place, or data tracking shows that >20% of products have achieved the desired outcome.

LEVEL 4

LEADING

The organisation has more rigorous procedures in place, or an ambitious target has been met e.g. >50% of products have achieved the desired outcome.

LEVEL 5

BEYOND BEST PRACTICE

The organisation has more rigorous procedures in place, or an ambitious target has been met e.g. 100% of products have achieved the desired outcome.

ABOUT THE APCO FRAMEWORK

The APCO Packaging Sustainability Framework (the Framework) aims to provide a consistent and transparent framework for assessing and tracking packaging sustainability across organisations. The Framework consists of thirteen independent criteria that belong to three separate categories. These categories are (i) Leadership, (ii) Packaging Outcomes and (iii) Operations. The diagram above shows the different criteria included within each of these three categories.

There are two types of criteria within the Framework:

- **Core criteria** are mandatory and must be answered by all Members when completing the Annual Reporting Tool.
- **Recommended criteria** are not mandatory, but Members are encouraged to complete as many recommended criteria as possible.

Each criteria is divided into five levels of performance ranging from 'getting started' to 'beyond best practice'. The diagram above illustrates the key differences between performance levels. Please see www.packagingcovenant.org.au for more information.

ABOUT APCO

APCO is a co-regulatory, not for profit organisation that partners with government and industry to reduce the harmful impact of packaging on the Australian environment. APCO promotes sustainable design and recycling initiatives, waste to landfill reduction activities and circular economy projects. APCO Annual Reports are a key Membership obligation, providing Member organisations with a transparent method to track their packaging sustainability performance. Annual reporting also supplies APCO with valuable data and information to identify industry trends and advancements.

Frucor Suntory Australia Pty Ltd

FREE FORM QUESTIONS

Describe initiatives, processes or practices that you have implemented during your chosen reporting period that have improved packaging sustainability.

1. PREP - all of our packaging materials have gone through the PREP tool.
2. PIQET - all of our packaging materials have gone through a PIQET assessment
3. The Procurement Fuel 4 Growth worksheet has been transferred onto Shibumi which means it better categorises data and graphs can be automatically generated.
4. Futures Hub has been created as a new innovation process that includes packaging technologists and encourages sustainability initiatives.
5. The packaging recyclability data worksheet has been created so we can measure all of our sales data. This means we can be more accurate with our reporting.
6. Ongoing RPET work on our NZ SKUs.
7. The removal of additives in PET in some NZ SKUs to improve recyclability.
8. Continuation of sustainability focus in corporate objectives and therefore increased reporting on sustainability throughout the company.

Describe any opportunities or constraints that affected performance within your chosen reporting period.

The push for shelf-ready packaging by supermarkets means higher board weight, increased risk of defects, damage and waste, and longer leadtimes. RPET supply is limited, making it a challenge to obtain supply of cost-neutral resin. Performance availability with the matching neck finish.
No recycled content available within liquid paperboard and limited recycling infrastructure.

CASE STUDIES

Case Study

A sustainability report has been created and uploaded to the Frucor Suntory website. This report discusses Frucor Suntory's sustainability goals and it also details the progress that has been made in 2020 and the focus for upcoming years.

This report gives consumers more information on Frucor Suntory's sustainability progress and reinforces the fact that sustainability is a major focus for the company.

The sustainability report can be found here: <https://www.frucorsuntory.com/wp-content/uploads/2021/03/Frucor-Suntory-Sustainability-Report-2020-FINAL-1.pdf>

Case Study

There has been a huge amount of work done on packaging sustainability reporting/ tracking for Frucor Suntory this year.

All of our packaging materials have gone through PREP (Packaging Recyclability Evaluation Portal) to determine whether or not they are recyclable in kerbside collections in NZ/ AU. Also, all of our packaging materials underwent a PIQET (Packaging Impact Quick Evaluation Tool) assessment. PIQET considers the entire life cycle of a packaging item and evaluates the environmental impact of each material.

The data that has been gathered using PIQET and PREP will be used to identify packaging sustainability improvement initiatives in the future.

The PIQET data was also used to assist in creating the packaging recyclability data sheet. This sheet uses our sales data and PIQET information to determine the exact tonnage of packaging materials that is sold by Frucor Suntory annually. This means that we can be more accurate with our reporting and that we do not skew our sustainability results to be more favorable by only reporting by SKU.

COMMITMENTS

The Action Plan detailed below, is a public commitment to advancing packaging sustainability outcomes as a Member of APCO. Members are encouraged to have a comprehensive internal plan with the steps they will take to fulfill their commitments.

Criteria 1.1 PACKAGING SUSTAINABILITY STRATEGY (core)

5. Beyond best practice

Your organisation is committed to: Publicly reporting progress towards packaging sustainability.

Criteria 1.2 CLOSED-LOOP COLLABORATION (core)

5. Beyond best practice

Your organisation is committed to: Introducing a documented process to continually identify new opportunities for collaboration or to improve existing initiatives.

Criteria 1.3 CONSUMER ENGAGEMENT (recommended)

3. Advanced

Your organisation is committed to engaging consumers about packaging sustainability by: (1) Including packaging information on your website or other publications. (2) Applying on-pack claims or labels. (3) Designing packaging to reduce the impacts of consumption.

Criteria 1.4 INDUSTRY LEADERSHIP (recommended)

5. Beyond best practice

Your organisation is committed to: (1) Investigating collaborative or industry leadership actions to improve packaging sustainability. (2) Being involved in a program or initiative to improve packaging sustainability through collaboration and leadership. (3) Being involved in multiple programs or initiatives to improve packaging sustainability through collaboration and industry leadership. (4) Having at least one leadership initiative externally recognised through an award or other formal process. (5) Actively engaging with peers and/or the community to promote packaging sustainability, and sharing sustainability knowledge for non-commercial purposes.

Criteria 2.1 PACKAGING DESIGN & PROCUREMENT (core)

5. Beyond best practice

Your organisation is committed to: Evaluating all packaging using a rigorous Life Cycle Assessment (LCA) approach.

COMMITMENTS

Criteria 2.2 PACKAGING MATERIALS EFFICIENCY (core)

4. Leading

Your organisation is committed to: Reducing packaging weight or optimising packaging material efficiency in more than 50% of products.

Criteria 2.3 RECYCLED & RENEWABLE MATERIALS (core)

4. Leading

Your organisation is committed to: Incorporating or optimising recycled and/or renewable content in more than 50% of products.

Criteria 2.4 POST-CONSUMER RECOVERY (core)

4. Leading

Your organisation is committed to: Having more than 50% of primary packaging be recoverable through existing post-consumer recovery systems and achieving the highest potential environmental value.

Criteria 2.5 CONSUMER LABELLING (recommended)

5. Beyond best practice

Your organisation is committed to: Labelling all products with disposal or recovery information that complies with the principles in ISO/AS 14021: Environmental labels and declarations.

Criteria 2.6 PRODUCT-PACKAGING INNOVATION (recommended)

4. Leading

Your organisation is committed to: Evaluating and optimising more than 50% of product-packaging systems using Life Cycle Assessment (LCA) or similar.

Criteria 3.1 BUSINESS-TO-BUSINESS PACKAGING (core)

4. Leading

Your organisation is committed to: Reducing consumption of single use business-to-business (B2B) packaging by more than 50% or optimising more than 50% of B2B packaging for efficiency and reuse.

COMMITMENTS

Criteria 3.2 ON-SITE WASTE DIVERSION (recommended)

4. Leading

Your organisation is committed to: Investigating opportunities to divert more than 50% of solid waste generated at facilities (factories, warehouses, offices, retail stores etc.) from landfill.

Criteria 3.3 SUPPLY CHAIN INFLUENCE (recommended)

5. Beyond best practice

Your organisation is committed to engaging its supply chain about packaging sustainability by: (1) Communicating goals and guidelines. (2) Providing support to suppliers to improve their understanding of goals and strategies. (3) Collaborating with key suppliers to share knowledge. (4) Having processes to evaluate risks and opportunities for influence. (5) Having business processes to monitor supplier compliance.
